		Put a Travis badge in the README.md.		Karin		2	
			Define requirements	All		2	Rogier
			Requirement check by Aaron	All		2	
			Make a class diagram of improvements/extensions	Fieke & Lilian	4	2	Christian
		Exercise 1 (use RDD)	Make a sequence diagram of improvements/extensions	Fieke & Lilian	4	1	Karin
As a player, I want to dragon to be animated, to increase user feedback and aesthetics.		Player animation on walking, shooting and standing		Rogier	4	1	Lilian
In the menu the user can select 2 player mode, which allows alows multiplayer		Local multiplayer possibility		Christian	1	2	Bas
-		Bubbles should not trap enemies while floating to the ceiling		Karin en Christian	1	2	Fieke
Caught enemies no longer accelerate indefinately when floating through open ceilinigs		Fix acceleration of bubbles		Karin en Christain	1	2	All
As a player, while I am playing the game I want to hear the theme music.		The game shall play a music theme when in progress.		Bas	1	1.5	
As a player, I want the dragon hear making a sound when jumping, shooting or destroying enemies.		The game shall play a sound when jumping, shooting or destroying enemies.		Bas	1	1.5	
As a player, I want to be able to turn the sounds on or off by pressing an assigned key.	ı	The player shall be able to turn the sounds on or off.		Bas	1	0	Not starte
As a player, I want to be able to pause the game by pressing escape.		The player shall be able to pause the game.		Christian	1	2	Working (
As a player, I want to receive points for finishing a level, killing an enemy or picking up fruit.	,	The player receives points when he finished a level, he kills an enemy, he picks up a piece of fruit		Bas	1	0	Done!
As a player, since when I am playing the game I am not really focussing on my score, I would like to see my score when the game is over.		The player sees his final score when the game is over		Rogier	0,5	0	
As a player, I want a piece of fruit to appear when I collide the dragon with an enemy, and be able to pick it up.		A piece of fruit should appear when the player collides with a caught enemy. The player can pick up this piece of fruit.		Bas	3	0	
it up.		caught charry. The player can pick up this piece of fruit.	Define requirements	All	<u> </u>	2	
			Requirement check by Aaron	All		2	
			Make a class diagram of improvements/extensions	Fieke & Lilian	4	2	
		Exercise 2 (use RDD)	Make a sequence diagram of improvements/extensions	Fieke & Lilian	4	1	
As a player, I want the dragon to speed up for 10 seconds, when picking up the Speed up Power Up.		Power up - Temporarily speed up a player's movement.	water a sequence diagram of improvements/extensions	Christian	1	2	
As a player, I want the the bubbles to increase in size for 10 seconds, when picking up the Increase Bubble Size Power Up		Power up - Increase bubble's size.		Christian	1	2	
As a player, I want the shoot bubbles to move a longer distance, when picking up the Increase					1		
Bubble Distance Up.		Power up - Increase bubble's movement speed.	Chagletule and find Puga arrors	Christian	1,5	2	
		Refactor Log class Refactor TileMap class	Checkstyle and findBugs errors Especially FindBugs throws severe errors	Karin	1,5	2	
		·	Especially Fillubugs throws severe errors	Lilian	2 0	1	
		Testing all classes		Lilian	0	1	

Taks	Subtask	Task assigned to	Estimated Effort per	Actual Effort per T	Done	Notes
Put a Travis badge in the README.md.		Karin				2 So succesful
	Define requirements	All				1
	·					
	Requirement check by Aaron	All				1 Not done completely, requirements weren't ok
	Make a class diagram of improvements/extensions	Fieke	4	5		Class diagrams needed to be connected, description of responsibilities and design decisions missing
Exercise 1 (use RDD)	Make a sequence diagram of improvements/extensions	Fieke	4	0		0 No sequence diagram done
Player animation on walking, shooting and standing		Rogier	4	3		2 Animation works
Local multiplayer possibility		Christian	1	3		Rough implementation was done quick, but testing and bug solving took longer than expected
Bubbles should not trap enemies while floating to		Official	'			CAPCOICU
the ceiling		Karin en Christian	1	0.5		2
Fix acceleration of bubbles		Karin en Christain	1	0.5		2
The game shall play a music theme when in progress.		Bas	1	3.5		2 Problems with sound in Travis.
The game shall play a sound when jumping, shooting or destroying enemies.		Bas	1	1.5		2
The player shall be able to turn the sounds on or off.		Bas	1	0		0 No time next week.
The player shall be able to pause the game.		Christian	1	1		2
The player receives points when he finished a level, he kills an enemy, he picks up a piece of fruit		Bas	1	0		0 No time next week.
The player sees his final score when the game is over		Rogier	0,5			0 No time next week.
A piece of fruit should appear when the player collides with a caught enemy. The player can pick up this piece of fruit.						
up this piece of fruit.	Define very iromente	Bas All	3	0		No time next week.
	Define requirements					
	Requirement check by Aaron	All				Class diagrams peeded to be connected
	Make a class diagram of improvements/extensions	Fieke	4	3		Class diagrams needed to be connected, description of responsibilities and design decisions missing
Exercise 2 (use RDD)	Make a sequence diagram of improvements/extensions	Fieke	4	0		No sequence diagram done
Power up - Temporarily speed up a player's movement.		Christian	1	1		2 Powerups use the jump sound
Power up - Increase bubble's size.		Christian	1	0.5		Powerups are placed at a fixed position
Power up - Increase bubble's movement speed.		Christian	1	0.5		2
Refactor Log class	Checkstyle and findBugs errors	Karin	1,5			
Refactor TileMap class	Especially FindBugs throws severe errors	Karin	2			Not all findBugs errors could be resolved
Testing all classes		Lilian	8	6		Audio & animations not tested. Test structure should be adjusted next time.

Problem #	Description	Reaction
1	Travis and Audio	try catch blocks, works on windows/osx not linux
2	Trying to make UML Diagrams and CRC cards from code you didn't write yourself	Is very difficult, a lot of communication and/or working together was needed. Task took a lot more time because of that

Adjustment	Motivation
For problem 2: You design the UML / note the responsibilities and design decisions for your own code	Better to make the people that wrote that piece of code design the UML / set up the basics for the CRC Cards
